

SUGGAPLAY MASTER BUILD SPECIFICATION v1.0

SUMMARY

Build SuggaPlay, a premium members-only dating and relationship platform.

PROJECTS

SuggaPlay | A private members' club for modern relationships.

- Premium members-only dating and relationship platform
- Curated private members' club where attractive, ambitious and open-minded adults connect through honesty, chemistry and shared intentions
- Combines premium dating with mutually beneficial relationships while remaining elegant, discreet and designed
- Experience should feel closer to Raya and Soho House than Tinder

TECHNICAL SKILLS

React Native

Expo

TypeScript

Expo Router

NativeWind

React Query

Supabase

PostgreSQL

Supabase Storage

Supabase Realtime

Stripe

React Hook Form

Zod

React Native Reanimated

React Native Gesture Handler

Deployment through Expo EAS

DESIGN DIRECTION

Everything should feel premium, minimal, editorial, luxury, fast, and dark mode by default. Think Apple, Raya, Soho House, Saint Laurent, Calvin Klein, Jacquemus. No gradients, no bright colours, large photography, beautiful typography, minimal UI, lots of white space, fluid animations, and nothing should feel like a typical dating app.

APP STRUCTURE

Splash, Authentication, Membership Application, Application Status, Onboarding, Home, Discover, Search, Messages, Notifications, Events, Profile, Membership, Settings, Help.

AUTHENTICATION

Support Email, Apple, Google, password reset, magic link, biometric login, and secure sessions.

MEMBERSHIP APPLICATION

Every person applies; nobody simply creates an account. Application consists of identity verification, name, age, gender, location, occupation, bio, lifestyle, education, relationship intentions, social profile (optional), referral (optional), photo upload, verification selfie, application review, and application submitted.

MEMBERSHIP REVIEW

Applications receive a score: Approved, Waitlisted, Rejected, with manual review for borderline cases. Members are always referred to as Members, never Users.

RELATIONSHIP PREFERENCES

Long-term Relationship, Casual Dating, Travel Partner, Luxury Lifestyle, Mutually Beneficial Relationship, Creative Connection, Open Relationship, Ethical Non-monogamy, Exploring. Allow multiple selections.

DISCOVER

Editorial card layout with large photography and minimal text. Display photo, name, age, location, verification, relationship intentions, online status. Actions: Like, Save, Message, View Profile. Infinite scrolling.

PROFILE

Large photography, lifestyle, biography, relationship intentions, interests, travel, private gallery, verification badges.

SEARCH

Filter by city, country, age, distance, relationship intentions, lifestyle, travel, verified members, recently active.

MESSAGING

Realtime messaging, typing indicators, read receipts, voice notes, image sharing, conversation search, push notifications.

EVENTS

Private dinners, art exhibitions, fashion events, travel, member experiences. Future feature.

MEMBERSHIP

Women: free membership. Men: Founding Membership £9.99/month limited to first 500 approved members and locked for life; Standard Membership £29.99/month. Includes unlimited messaging, unlimited browsing, unlimited likes, unlimited profile views, no credits, no tokens, no pay-per-message. Stripe subscriptions.

NOTIFICATIONS

Messages, likes, application updates, events, membership announcements, push notifications.

ADMIN

Application review, member management, reports, verification, analytics, subscriptions, content moderation.

DATABASE

Create tables for members, profiles, photos, relationship_preferences, likes, matches, messages, conversations, notifications, applications, application_reviews, subscriptions, events, reports, verification, settings. Use Row Level Security and Supabase Auth.

SECURITY

Row Level Security, image moderation, spam detection, rate limiting, input validation, account reporting, blocking, privacy controls.

DESIGN RULES

Dark mode first, photography first, rounded corners, large cards, minimal copy, elegant typography, premium animations, everything should feel calm, no clutter, no advertisements, no gamification, no bright colours.

TONE

Never describe people as users. Always use Applicant, Member, Founding Member, Verified Member, Membership Committee. Never use dating app language. Always describe SuggaPlay as: "A private members' club for modern relationships."

WEBSITE

The website is not the product. It exists only to introduce SuggaPlay, explain membership, accept applications, collect email signups, publish editorial content, and encourage app downloads.

BUILD ORDER

Step 1: Create Expo project, install dependencies, configure TypeScript, Expo Router, NativeWind, Supabase, and authentication. Stop. Step 2: Build navigation. Stop. Step 3: Build authentication. Stop. Step 4: Build membership application flow. Stop. Step 5: Build application review. Stop. Step 6: Build onboarding. Stop. Step 7: Build discover. Stop. Step 8: Build profile. Stop. Step 9: Build messaging. Stop. Step 10: Build notifications. Stop. Step 11: Build subscriptions. Stop. Step 12: Build admin. Stop. Never continue until previous step reviewed and approved; inspect existing project and explain implementation plan before changes; modify only relevant files; never refactor unrelated parts; build production-quality code; prioritize maintainability, modularity, and performance over speed.

SuggaPlay Membership Curation System

Goal

Build the world's most exclusive dating community for successful, ambitious and interesting people.

We are not looking for celebrities.

We are looking for members who would naturally belong in the world's best private members' clubs.

The Membership Formula

Every applicant must pass 4 of the following 6 criteria.

1. Identity Verification (Required)

Government ID

Selfie verification

Phone verification

Email verification

Automatic pass/fail.

2. Professional Credibility

Applicant connects at least one:

• LinkedIn • Company website • Business registration • Professional portfolio

Automatic verification where possible.

3. Lifestyle Verification

Applicant uploads photos that demonstrate their lifestyle.

AI checks:

• Real person • No stock images • No fake accounts

4. Social Proof

One or more of:

Verified social profile

Professional website

Press coverage

Industry recognition

Current member referral

5. Community References

Two existing members can recommend an applicant.

Each recommendation adds trust.

Members who repeatedly recommend poor-quality applicants lose referral privileges.

6. Human Review

Applications that don't clearly pass or fail are reviewed by the Membership Committee.

Possible outcomes:

Approved

Waitlist

Declined

Membership Score

Every application receives a score out of 100.

Identity Verification 25 points

Professional Credibility 20 points

Community References 20 points

Lifestyle Verification 15 points

Social Proof 10 points

Profile Quality 10 points

Applicants scoring above the approval threshold are admitted automatically.

Borderline applications go to manual review.

Automatic Rejection

Fake identity

Stolen photos

Incomplete profile

Spam behaviour

Previous ban

Multiple duplicate accounts

Abusive conduct

Waitlist

Strong applicants may still be placed on a waitlist if the platform needs to maintain balance by city, age range or gender.

Exclusivity is part of the product.

Membership Promise

SuggaPlay is not exclusive because of wealth.

It is exclusive because of quality.

Every member contributes to a trusted, respectful and inspiring community.

Target Members

Entrepreneurs

Founders

Professionals

Investors

Creatives

Executives

Athletes

Artists

Luxury hospitality members

Private members' club members

Interesting people with exceptional lives

Long-Term Vision

The SuggaPlay membership badge becomes recognised as a symbol of trust, quality and belonging, similar to being accepted into a respected private members' club.
